INDEPENDENT AUDITOR'S REPORT

Board of Education McClave School District Number RE-2 McClave, Colorado 81057

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McClave School District Number RE-2, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of McClave School District Number RE-2, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension and post employment benefits trend data on pages i through vii, and 46 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise McClave School District Number RE-2 basic financial statements. The other schedules and state required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements.

The other schedules, state required schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other schedules, state required schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 22, 2021, on our consideration of McClave School District Number RE-2 internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of McClave School District Number RE-2 internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering McClave School District Number RE-2 internal control over financial reporting and compliance.

Difon, Waller & Co., Inc., November 22, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of the McClave School District Re-2, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the twelve month period ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with and the District's financial statements, which follow this section.

Financial Highlights

- * The assets of the District exceeded its liabilities at the close of the most recent period \$6,564,287 (total assets) compared to \$5,813,439 (total liabilities.) The District participates in the Public Employee Retirement Association and has pension obligations with the implementation of Government Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions. The District's share of these obligations is \$4,820,258 and the District is required to record a portion of that share, which shows a change in Net Position of (\$1,075,531). In addition, the District is carrying an accrual for salaries and benefits of \$242,040.
- * As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,945,404. Approximately 90 percent of this total amount, \$2,649,993 is available for spending at the government's discretion (unassigned, fund balance).
- * At the end of the current fiscal year, the unassigned fund balance for the general fund was \$2,649,993 or 73 percent of the total general fund expenditures of \$3,597,979.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (*governmental activities*).

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives: The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary fund.

- Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The District maintains two governmental funds, the capital reserve fund and the general fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and debt service fund, both of which are considered to be major funds. The District adopts an annual appropriated budget for its general fund and capital reserve fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets.
- Special Revenue funds. Special revenue funds are used by state and local governments, earmarked for a specific purpose (other than business-like activities). The District uses the special revenue fund to report activities for its food service program and pupil activity programs.
- **Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separated statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the District's

government-wide financial statements because the District cannot use these assets to finance its operations.

Note to the financial statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements.

Other information. Due to the District's implementation of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, data from preceding fiscal year(s) has been omitted. A comparative analysis of government-wide data will be presented in future years when the information is comparable and available.

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$348,253 as of June 30, 2021.

Table 1:

				-		

Investment in governmental fund capital assets (e.g., land, buildings, furniture, and equipment) less any related debt used to acquire those assets that is still outstanding is 2,824,519. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net assets represents resources that are subject to external restrictions on how they may be used. A surplus is not an indication that the District has significant resources available to meet financial obligations next year, but rather the result of having *long-term* commitments that are less than currently available resources.

Governmental activities. The District's total net position increased \$1,075,531. The total cost of all *governmental activities* this year was \$3,019,009. The amount that our taxpayers paid for these activities through property taxes was \$587,220 or 19%.

The District was required to implement GASB 75 in 2018 resulting in a net other post-employment benefit (OPEB) liability of \$175,280. Under GASB 75 the District's proportionate share of the OPEB liability of the Colorado state retirement system Health Care Trust Fund administered by the Public Employees Retirement Association, is recorded as a liability of the District. At implementation beginning equity is restated and deferred inflows, outflows and the net OPEB liability are reported. Beginning net position of governmental activities decreased as a result of this change.

Upon implementation of GASB 75, the beginning net position of governmental activities increased \$1,075,531 to \$(1,144,582) from \$(2,220,113) at the end of the previous fiscal year. Fiscal year 2020 financial information has not been restated because some of the comparable information is not available.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance – related legal requirements, bond covenants, and segregation for particular purposes.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved, undesignated fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

At the end of the 2021 fiscal year, the District reported combined ending fund balances of \$2,945,404, an increase of \$275,638. Approximately 90% of this total amount was *unreserved*, *undesignated fund* balance. The remainder of fund balance is *restricted* or *designated* to indicate that it is not available for new spending because it has already been committed for emergencies \$99,500 and reserve expenditures.

The general fund is the primary operating fund of the District. In 2021, the unreserved, undesignated fund balance of the General Fund was \$2,649,993, while the total fund balance was \$2,749,493. As a measure of the general fund's liquidity, it may be useful to compare both unreserved, undesignated fund balance and total fund balance to the total fund expenditures.

The fund balance of the District's General Fund increased by \$226,904 during the 2021 fiscal year.

Special Revenue funds. As mentioned earlier, the District's special revenue funds provide the same type of information found in the government-wide financial statements, but in more detail. The ending fund balance on June 30, 2021 was \$195,911.

Budgetary Highlights

Capital Asset and Debt Administration Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2021, amounted to \$8,817,623 with an accumulated depreciation of \$5,623,104 on capital assets including land, buildings and improvements, and furniture and equipment.

Table 4: Capital Assets (Net of Depreciation)

Land	Governmental 2020-2021 179,324	Governmental 2019-2020 170,676
Buildings & Site Improvements	2,666,296	2,940,310
Equipment and Vehicles	345,877	351,945
Food Service	3,022	7,516
Total Capital Assets	3,194,519	3,470,447

Long-term debt. At the end of June 30, 2021, the District had no bonded debt. But a ten year Certificate of Participation was begun on July 1, 2015, with a principal payment of \$55,000 and interest of \$10,926.25 due for 21-22.

McCLAVE SCHOOL DISTRICT NUMBER RE-2

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances -	Total Governmental Funds
-------------------------------	--------------------------

275,638

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more the \$5,000 are capitalized and the cost is allocated over their estimated used lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays more than \$5,000	95,737	
Loss on Disposition of Assets	(64,087)	
Depreciation Expense	(307,578)	(275,928)

Property tax revenues received prior to the year for which they are being levied or are not "available" at year end are reported as deferred revenue in the governmental funds. They are, however, recorded as revenues in the statement of activities. Deferred property tax revenues increased this year.

(24,300)

In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid). During the year, compensated absences decreased by this amount.

(7,320)

The governmental funds report debt proceeds as an other financing source, while repayment of debt principal is reported as an expenditure. Interest expense is recognized as it accrues in the statement of activities regardless of when it is due. The net effect of these differences follows:

Debt Payments	55,000
Accrued Interest	140

The increase in net pension and other post employment benefits liabilities, along with the changes and amortizations of deferred flows associated with those liabilities, are not recorded at the fund level.

Pension (Cost) Income	1,041,346	
Other Post Employment Benefit Cost	10,955	1,052,301

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the McClave School District Number RE-2 (the District) conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant policies:

The District operates under an elected Board of Education with five members.

The District is the lowest level of government, which is considered to be financially accountable over all activities related to public school education in McClave School District Number RE-2. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. The Board of Education members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

Reporting Entity

Governmental Accounting Standards Board (GASB) Statement No. 14 (as amended by Statements No. 34, No. 39 and No. 61), "The Financial Reporting Entity" (GASB No. 14) describes the financial reporting entity as it relates to governmental accounting. According to this Statement, the financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations whose exclusion from the reporting entity's financial statements would cause those statements to be misleading or incomplete. Any organizations that can be described by these last two items are included with the primary government in the financial statements as component units.

This District is not included in any other governmental "reporting entity" as defined in GASB No. 14 and does not include any other component unit as part of its "reporting entity". As required by accounting principles generally accepted in the USA, these basic financial statements present the District (the primary government) and its component units.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, operating statements present increases and decreases in net current assets and unrestricted fund balance as a measure of available spendable resources. This means that only current liabilities are generally included on their balance sheets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services or privileges provided 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

All governmental fund types use the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available if collected within 60 days after year-end.

Property taxes are reported as receivables and deferred inflows when levied and as revenues when due for collection in the following year and determined to be available.

Grants and entitlement revenues are recognized when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts.

Expenditures are recorded when the related fund liability is incurred with the exception of general obligation and capital lease debt service which is recognized when due and certain accrued sick and personal pay which are accounted for as expenditures when expected to be liquidated with expendable available financial resources.

The proprietary fund types are accounted for on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The measurement focus in these funds is on the flow of economic resources and emphasizes the determination of net income. All assets and all liabilities associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred flows, fund equity, revenues and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The major funds presented in the accompanying basic financial statements are as follows:

Major Governmental Funds

- 1. General Fund the general operating fund of the District; used to account for all resources that are not required legally or by sound financial management to be accounted for in another fund.
- 2. Food Service this fund accounts for all financial activities associated with the District's school breakfast and lunch programs

Additionally, the District reports the following fund type:

The Scholarship Trust Fund – this fund is used to account for contributions for the payment of scholarships.

E. Cash and Investments

Cash represents amounts on deposit with financial institutions or held by the District. The District is allowed to invest in the following types of investments: short-term certificates of deposit, repurchase agreements, money market deposit accounts, mutual funds, government pools, and U.S. Treasury Obligations. The District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments are recorded at fair value in accordance with GASB Statement No. 72 Fair Value Measurement and Application. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

F. Receivables

Property taxes levied in 2020 but uncollected in 2021 are identified as property taxes receivable. Amounts of property taxes that are not available at June 30, 2021 are recorded as deferred inflows. Program grants are recorded as receivables and revenues at the time reimbursable project costs are incurred.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Inventories

Materials and supplies inventories are stated at cost. Inventories recorded in the Food Services Fund consist of purchased and donated commodities. Purchased inventories are stated at cost. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt.

The cost of all inventories is recorded as an asset when the individual inventory items are purchased, and as an expenditure or expense when consumed.

H. Capital Assets

Capital assets, which include property, vehicles and equipment, are utilized for general District operations and are capitalized at actual or estimated cost. Donations of such assets are recorded at estimated fair value at the time of donation. Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Maintenance, repairs, and minor renovations are recorded as expenditures when incurred. Major additions and improvements are capitalized. When assets used in the operation of the governmental fund types are sold, the proceeds of the sale are recorded as revenues in the appropriate fund. The District does not capitalize interest on the construction of capital assets in governmental funds. However, the District does capitalize interest on the construction of capital assets in business-type activities.

The monetary threshold for capitalization of assets is \$5,000. The District's capital assets are depreciated using the straight-line method over the estimated useful lives of the fixed assets (5-50 years). Depreciation of all capital assets is charged as an expense against their operations. Depreciation is recorded in the year of acquisition.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net position. The District records long-term debt of governmental funds at the face value.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Constitutional Amendment

In November 1992, Colorado voters approved Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations, which apply to the State of Colorado and local governments. It requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any entity.

In November of 1997 the registered voters approved a ballot resolution authorizing McClave School District Number RE-2 to collect, retain and expend all revenues collected during 1996 and any subsequent year from any source provided that no property tax mill levy be increased or any new tax imposed without the consent of the voters.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future years. TABOR requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be three percent or more of fiscal year spending (excluding bonded debt service). As of June 30, 2021 the District reserved \$99,500 for this purpose.

Spending and revenue limits are determined based on the prior fiscal year's spending adjusted for inflation in the prior calendar year plus annual increases in funded student enrollment. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions.

K. Property Taxes

Under Colorado law, all property taxes are due and payable in the year following the year levied. The 2020 property tax calendar for Bent County was as follows:

Levy Date December 15, 2020
Lien Date January 1, 2021
Tax Bills Mailed January 1, 2021
First Installment Due February 28, 2021
Second Installment Due June 15, 2021
If Paid in Full, Due April 30, 2021
Tax Sale – 2019 Delinquent Property Taxes October 25, 2020

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

June 30, 2021

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) NOTE 1

M. Interest Expense

All interest expense has been reported as unallocated in the Government-wide financial statements.

N. GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

- 1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or
- 2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- 3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Directors (the District's highest level of decision-making authority).
- 4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
- 5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The District's Committed Fund Balance is fund balance reporting required by the School Board, either because of a School Board Policy in the School Board Policy Manual, or because of motions that passed at School Board meetings.

Assigned Fund Balance Policy:

The District's Assigned Fund Balance is fund balance reporting occurring by School Board Administration authority, under the direction of the Chief Business Officer.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

<u>Unassigned</u> :	2,649,993			2,649,993
Total Fund Balances	2,749,493	60,240	135,671	2,945,404

O. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position and the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position and the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total government funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements. However, certain items having no effect on measurement and basis were eliminated from the government fund statements during the consolidation of governmental activities.

Items Elimi	nated
Interfund Loans	93,184
Transfers	57,203
	150,387

NOTE 3 BUDGETARY INFORMATION

Revenues and expenditures are controlled by budgetary accounting systems in accordance with various legal requirements. The budgeted revenues and expenditures represent the original adopted budget as subsequently adjusted by the Board of Education in accordance with Colorado School Laws. Budgets are generally prepared on the same basis as that used for accounting purposes.

The District has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

- 1. Prior to June 1, the Business Manager submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public notices are released to obtain taxpayer comments.
- 3. Prior to June 30, the budget is legally enacted through passage of a resolution.
- 4. The Business Manager is authorized to transfer budgeted amounts between categories within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education.
- 5. Formal budgetary integration should be employed as a management control device during the year for the General Fund, Special Revenue Funds, and Trust Funds.
- 6. Budgets for the General Fund, Special Revenue Funds, and Trust Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 3 BUDGETARY INFORMATION (Continued)

All appropriations lapse at the end of each fiscal year. Authorization to transfer budgeted amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent of Schools and may be delegated to an appropriate level of management. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Budgetary amounts reported in the accompanying basic financial statements are as originally adopted and amended by the Superintendent and/or the Board of Education throughout the year.

NOTE 4 CASH AND INVESTMENTS

Deposits

The Colorado Public Deposit Protection Act (PDPA), requires that all units of local government deposit cash in eligible public depositories, eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

At June 30, 2021, the District's bank balance and corresponding carrying balance were as follows:

	Carrying	Bank
	_Balance	Balance
Insured (FDIC)	250,000	250,000
Uninsured, Collateralized under the		
Public Deposit Protection Act		
of the State of Colorado	2,999,044	3,023,091
Cash with County Treasurer	18,946	-
Cash on Hand	700	-
Total Cash and Deposits	3,268,690	3,273,091

As presented above, deposits with a bank balance of \$3,023,091 and a carrying balance of \$2,999,044 as of June 30, 2021 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

Investments

At June 30, 2021, the District had the following investments:

Investment	<u>Maturity</u>	Fair Value
Vanguard Investment		606,487

NOTE 4 CASH AND INVESTMENTS (Continued)

Investments (Continued)

Investments Held by Fiduciary Scholarship Trust Fund – The scholarship trust fund has various investments held by Vanguard which are subject to market fluctuations and have been marked to market at 6/30/21. An unrealized gain of \$98,602 was recorded at year end. These investments are insured under SPIC up to \$500,000. The District is not responsible for the investment of these funds.

Concentration of Credit Risk – the District has no policy restricting the amount that can be invested in any issuer.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2021:

• Vanguard Investment of \$606,487 is valued using quoted market prices (Level 1 inputs)

NOTE 5 CAPITAL ASSETS

A summary of changes in capital assets is as follows:

	Balance July 1, 2020	Increases	Decreases	Balance June 30, 2021
Governmental Activities	July 1, 2020	mercases	Decreases	June 50, 2021
Capital Assets Not Being				
<u>Depreciated</u> Land	170,676	8,648	-	179,324
Capital Assets Being Depreciated Buildings &				
Site Improvements	6,977,704	9,500	96,127	6,891,077
Equipment & Vehicles	1,573,319	77,589	Ye.	1,650,908
Food Service	96,314	2	5	96,314
Total Capital Assets Being Depreciated	8,647,337	87,089	96,127	8,638,299

NOTE 5 CAPITAL ASSETS (Continued)

	Balance July 1, 2020	Increases	Decreases	Balance June 30, 2021

Capital Assets, Net	3,470,447	(<u>211,841</u>)	64,087	3,194,519

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:

Instruction	233,710
Transportation	69,374
Food Service	4,494
Total Depreciation Expense - Governmental Activities	307,578

NOTE 6 ACCRUED SALARIES AND BENEFITS

Salaries and retirement benefits of certain contractually employed personnel are paid over a twelvemonth period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, and June 30, 2021, are estimated to be \$242,040. Accordingly, the accrued compensation is reflected as a liability in the accompanying financial statements of the various funds.

NOTE 7 ACCUMULATED SICK LEAVE

Compensated absences are made up of accumulated sick leave reported as non-current liabilities in the government-wide financial statements. As of June 30, 2021 the District has recorded an estimated liability of \$36,357 relating to accrued sick leave payable.

	Balance			Balance
	July 1, 2020	Additions	Deletions	June 30, 2021
Accumulated Sick Leave	29.037	7,320		36,357

NOTE 8 PENSION PLAN

Defined Benefit Pension Plan

Summary of Significant Accounting Policies

Pensions. McClave School District Number RE-2 participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: Concerning Modifications to the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to certain benefit provisions. Most of these changes were in effect as of June 30, 2021.

General Information about the Pension Plan

Plan description. Eligible employees of the McClave School District Number RE-2 are provided with pensions through the SCHDTF - a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2020. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

NOTE 8 PENSION PLAN (Continued)

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2020, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S., once certain criteria are met. Pursuant to SB 18-200, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive an annual increase of 1.25 percent unless adjusted by the automatic adjustment provision (AAP) pursuant to C.R.S. § 24-51-413. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lessor of an annual increase of 1.25 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned annual increase by up to 0.25 percent based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of June 30, 2021: Eligible employees of, McClave School District Number RE-2 and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, et seq. and § 24-51-413. Eligible employees are required to contribute 10.00 percent of their PERA-includable salary during the period of July 1, 2020 through June 30, 2021. Employer contribution requirements are summarized in the table below.

NOTE 8 PENSION PLAN (Continued)

	July 1, 2020
	Through
	June 30, 2021
Employer contribution rate	10.90%
Amount of employer contribution apportioned to the Health Care	
Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%
Amount apportioned to the SCHDTF	9.88%
Amortization Equalization Disbursement (AED) as specified in	
C.R.S. § 24-51-411	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as	
specified in C.R.S. § 24-51-411	5.50%
Total employer contribution rate to the SCHDTF	19.88%

^{**}Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

As specified in C.R.S. § 24-51-414, the State is required to contribute \$225 million (actual dollars) each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. House Bill (HB) 20-1379 suspended the \$225 million (actual dollars) direct distribution payable on July 1, 2020 for the State's 2020-21 fiscal year.

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the McClave School District Number RE-2 is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from McClave School District Number RE-2 were \$360,700 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the SCHDTF was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total pension liability to December 31, 2020. The McClave School District Number RE-2 proportion of the net pension liability was based on McClave School District Number RE-2 contributions to the SCHDTF for the calendar year 2020 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

Due to the aforementioned suspension of the July 1, 2020, direct distribution payment, the nonemployer contributing entity's proportion is zero percent. Pursuant to C.R.S. § 24-51-414, the direct distribution payment from the State of Colorado is to recommence annually starting on July 1, 2021. For purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation.

NOTE 8 PENSION PLAN (Continued)

At June 30, 2021, the McClave School District Number RE-2 reported a liability of \$4,820,258 for its proportionate share of the net pension liability. The amount recognized by the McClave School District Number RE-2 as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with McClave School District Number RE-2 were as follows:

McClave School District Number RE-2 proportionate share of the net pension	
liability	\$ 4,820,258
The State's proportionate share of the net pension liability as a nonemployer	
contributing entity associated with the McClave School District Number RE-2	\$ -
Total	\$ 4,820,258

At December 31, 2020, the McClave School District Number RE-2 proportion was 0.0318 percent, which was an increase of 0.0032 from its proportion measured as of December 31, 2019.

For the year ended June 30, 2021, the McClave School District Number RE-2 recognized pension income of \$1,041,346 and revenue of \$-0- for support from the State as a nonemployer contributing entity. At June 30, 2021, the McClave School District Number RE-2 reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	264,849	-
Changes of assumptions or other inputs	463,694	(810,245)
Net difference between projected and actual earnings on pension plan investments	•	(1,061,048)
Changes in proportion and differences between contributions recognized and proportionate share of contributions	697,267	(109,189)
Contributions subsequent to the measurement date	187,241	N/A
Total	1,613,051	(1,980,482)

\$187,241 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30, 2021	
2022	(612,405)
2023	336,267
2024	(111,148)
2025	(167,386)
2026	-
Thereafter	-

NOTE 8 PENSION PLAN (Continued)

Actuarial assumptions. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% – 9.70 %
Long-term investment rate of return, net of pension	
plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07	
and DPS benefit structure (compounded annually)	1.25%
PERA benefit structure hired after 12/31/06*	Financed by the AIR

^{*}Post-retirement benefit increases are provided by the AJR, accounted separately within each Division Trust Fund, and subject to moneys being available, therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females**: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2019, valuation were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by PERA's Board during the November 18, 2016, Board meeting.

NOTE 8 PENSION PLAN (Continued)

Based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total pension liability from December 31, 2019, to December 31, 2020.

	_
Actuarial cost method	Entry age
Price inflation	2.30 %
Real wage growth	0.70 %
Wage inflation	3.00 %
Salary increases, including wage inflation	3.40 % - 11.00 %
Long-term investment rate of return, net of pension	
plan investment expenses, including price inflation	7.25 %
Discount rate	7.25 %
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07	
and DPS benefit structure (compounded annually)	1.25 %
PERA benefit structure hired after 12/31/06*	Financed by the AIR

^{*}Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available, therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.

The pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubT-2010 Healthy; Retiree Table, adjusted as follows:

- Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

NOTE 8 PENSION PLAN (Continued)

Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a benefit-weighted basis.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives*	6.00%	4.70%
Total	100.00%	

^{*}The Opportunity Fund's name changed to Alternatives, effective January 1, 2020.

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

NOTE 8 PENSION PLAN (Continued)

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded. HB 20-1379 suspended the \$225 million (actual dollars) direct distribution payable on July 1, 2020, for the State's 2020-21 fiscal year.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

NOTE 8 PENSION PLAN (Continued)

Based on the above assumptions and methods, the SCHDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the McClave School District Number RE-2 proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease	Current Discount	1% Increase
	(6.25%)	Rate (7.25%)	(8.25%)
Proportionate share of the net pension liability	6,575,227	4,820,258	3,357,791

Pension plan fiduciary net position. Detailed information about the SCHDTF's FNP is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

Defined Contribution Pension Plan

Voluntary Investment Program

Plan Description – Employees of the McClave School District Number RE-2 that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available Annual Report which includes additional information on the Voluntary Investment Program. That report can be obtained at www.copera.org /investments/pera-financial-reports.

Funding Policy — The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. In addition, the McClave School District Number RE-2 has agreed to match employee contributions up to 2.5% percent of covered salary as determined by the Internal Revenue Service. Employees are immediately vested in their own contributions, employer contributions and investment earnings. For the year ended June 30, 2021, program members contributed \$44,542 and McClave School District Number RE-2 recognized pension expense and a liability of \$33,006 and \$33,006, respectively, for the Voluntary Investment Program.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS

Defined Benefit Other Post Employment Benefit (OPEB) Plan

Summary of Significant Accounting Policies

OPEB. McClave School District Number RE-2 participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Plan description. Eligible employees of the McClave School District Number RE-2 are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the McClave School District Number RE-2 is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from McClave School District Number RE-2 were \$17,604 for the year ended June 30, 2021.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the McClave School District Number RE-2 reported a liability of \$175,280 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2020. The McClave School District Number RE-2 proportion of the net OPEB liability was based on McClave School District Number RE-2 contributions to the HCTF for the calendar year 2020 relative to the total contributions of participating employers to the HCTF.

At December 31, 2020, the McClave School District Number RE-2 proportion was 0.0184 percent, which was a decrease of 0.0003 from its proportion measured as of December 31, 2019.

For the year ended June 30, 2021, the McClave School District Number RE-2 recognized OPEB income of \$10,955. At June 30, 2021, the McClave School District Number RE-2 reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	465	(38,535)
Changes of assumptions or other inputs	1,310	(10,748)
Net difference between projected and actual earnings on OPEB plan investments		(7,162)
Changes in proportion and differences between contributions recognized and proportionate share of contributions	15,841	(5,473)
Contributions subsequent to the measurement date	9,138	N/A
Total	26,754	(61,918)

\$9,138 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30, 2021	
2022	(10,238)
2023	(9,236)
2024	(9,499)
2025	(9,941)
2026	(5,052)
Thereafter	(336)

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Actuarial assumptions. The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method Price inflation	Entry age 2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% in aggregate
Long-term investment rate of return, net of OPEB	
plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates	
PERA benefit structure:	1,00
Service-based premium subsidy	0.00%
PERACare Medicare plans	8.10% in 2020, gradually
	decreasing to 4.50% in 2029
Medicare Part A premiums	3.50% in 2020, gradually
-	increasing to 4.50% in 2029
DPS benefit structure:	
Service-based premium subsidy	0.00 %
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2019, valuation, the following monthly costs/premiums (actual dollars) are assumed for 2020 for the PERA Benefit Structure:

	Initial Costs for Members Without Medicare Part A		
Medicare Plan	Monthly Cost	Monthly Premium	Monthly Cost Adjusted to Age 65
Medicare Advantage/Self-Insured Rx	\$588	\$227	\$550
Kaiser Permanente Medicare Advantage HMO	621	232	586

The 2020 Medicare Part A premium is \$458 (actual dollars) per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2019, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2020	8.10%	3.50%
2021	6.40%	3.75%
2022	6.00%	3.75%
2023	5.70%	3.75%
2024	5.50%	4.00%
2025	5.30%	4.00%
2026	5.10%	4.00%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

Mortality assumptions used in the December 31, 2019 valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Post-retirement non-disabled mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2019, valuation were based on the results of the 2016 experience analysis for the period January 1, 2012, through December 31, 2015, as well as the October 28, 2016, actuarial assumptions workshop and were adopted by PERA's Board during the November 18, 2016, Board meeting.

Based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period of January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total OPEB liability from December 31, 2019, to December 31, 2020.

	Trust Fund			
	State Division	School Division	Local Government Division	Judicial Division
Actuarial cost method	Entry age	Entry age	Entry age	Entry age
Price inflation	2.30%	2.30%	2.30%	2.30%
Real wage growth	0.70%	0.70%	0.70%	0.70%
Wage inflation	3.00%	3.00%	3.00%	3.00%
Salary increases, including wage inflation:				
Members other than State Troopers	3.30% - 10.90%	3.40% - 11.00%	3.20% - 11.30%	2.80% -5.30%
State Troopers	3.20% - 12.40%	N/A	3.20% - 12.40% *	N/A

^{*} C.R.S. § 24-51-101 (46), as amended, expanded the definition of "State Troopers" to include certain employees within the Local Government Division, effective January 1, 2020. See Note 4 of the Notes to the Financial Statements in PERA's 2020 Annual Report for more information.

The long-term rate of return, net of OPEB plan investment expenses, including price inflation and discount rate assumptions were 7.25 percent.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.

Mortality assumptions used in the roll forward calculations for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the roll forward calculation for the HCTF, using a headcount-weighted basis.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Pre-retirement mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

The pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the Judicial Division were based upon the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the School Division were based upon the PubT-2010 Healthy Retiree table, adjusted as follows:

- Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the Judicial Division were based upon the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

Disabled mortality assumptions for Members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a head-count weighted basis.

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2020 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board's actuary, as discussed above.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives*	6.00%	4.70%
Total	100.00%	

^{*}The Opportunity Fund's name changed to Alternatives, effective January 1, 2020

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Sensitivity of the McClave School District Number RE-2 proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease	Current Trend	1% Increase in
	in Trend Rates	Rates	Trend Rates
Initial PERACare Medicare trend rate	7.10%	8.10%	9.10%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.50%	3.50%	4.50%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	170,749	175,280	180,554

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

• Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2020, measurement date.

NOTE 9 OTHER POST EMPLOYMENT BENEFITS (Continued)

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the HCTF's FNP was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the McClave School District Number RE-2 proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease	Current Discount	1% Increase
	(6.25%)	Rate (7.25%)	(8.25%)
Proportionate share of the net OPEB liability	200,786	175,280	153,487

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

NOTE10 JOINT VENTURE

Not reflected in the accompanying financial statements is the District's participation in the Southeastern Board of Cooperative Educational Services (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per district.

The District has one member on the Board. This Board has final authority for all budgetary and financing of the joint venture. The BOCES by-laws indicate that the entity is to have perpetual existence, but in the event of its dissolution, all assets shall be divided among member school districts on a pro rate basis determined by the BOCES board. The joint venture summary audited financial information as of June 30, 2020, the latest year for which complete information is available, is as follows:

Assets and Deferred Outflows	2,365,312
Liabilities and Deferred Inflows	5,603,650
Net Position	(3,238,338)
	2,365,312
Revenues	3,199,012
Expenses	2,572,870
Change in Net Position	626,142

The BOCES is not included as a component unit of the District as the financial responsibility is minimal, there is no financial interdependency, the District does not have the ability to significantly influence the operations of the BOCES and the District is not accountable for fiscal matters of the BOCES. The BOCES is audited annually and files a report with the Colorado State Auditor.

NOTE 11 COLORADO SCHOOL DISTRICT SELF INSURANCE POOL

The District belongs to the Colorado School District's Self-Insurance Pool. The Pool was established by the Colorado Association of School Boards (CASB) to provide insurance coverage to participants in the areas of General Liability, Errors and Omissions, Automobile Liability, Auto Physical Damage, Auto Personal Injury Protection, Real and Personal Property, Crime, Workers' Compensation and other coverage. The Board of Directors is composed of eight persons; seven of whom are appointed by the Board of Directors of CASB and the Executive Director of CASB. The Pool is managed by an independent manager chosen by the Board of Directors. Each member's initial contribution and subsequent contributions are determined by the Pool based on factors including, but not limited to, the Aggregate Pool claims, the cost of Administrative and other operating expenses, the number of participants, the adequacy of both Operating and Reserve Funds and other factors touching on the status of the Pool or an individual participant, and as approved by the Colorado Insurance Commissioner.

NOTE 11 COLORADO SCHOOL DISTRICT SELF INSURANCE POOL (Continued)

As the District did not exercise oversight responsibility nor have sufficient control over Pool activities, the Pool is not a component unit of the District and only the District's share of contributions to the Pool is recorded as Expenditures in the fund from which they are paid.

The District's share in the Pool is not determinable from current information, but is estimated to be less than 1%. The District's share, if calculated, would not be material to the Pool's financial information at June 30, 2021.

An audited summary of the Colorado School District's Pool financial information at June 30, 2020, and the year then ended (latest information available) follows:

Total Assets	50,982,972
Total Liabilities	23,141,059
Total Equity	27,841,913
Revenue	31,306,454
Underwriting Expenses	26,904,016
Underwriting Gain (Loss)	4,402,438
Net Investment Income	1,580,789
Other Income	4
Net Income (Loss) Before Dividend	5,983,227
Dividend	
Net Income	5,983,227
Transfer of Capital Contributions	ė,
Change in Non Admitted Assets	48,913
Capital Contributions from Members	
Unassigned Surplus	27,841,913

NOTE 12 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District maintains commercial insurance for all risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 13 INTERFUND RECEIVABLES AND TRANSFERS

	Due To	Due From
General Fund	:=	93,184
Food Service Fund	93,184	
Total	<u>93,184</u>	93,184

These interfund balances occurred due to expenditures paid on behalf of another fund.

Interfund balances are expected to be paid within one year from the date of the financial statements.

<u>Transfers</u>	Transfer In	Transfer Out
General Fund	3	57,203
Food Service Fund	<u>57,203</u>	· · · · · ·
Total	<u>57,203</u>	<u>57,203</u>

Transfers were made from the General Fund to the Food Service Fund for the purpose of assisting food service operations.

NOTE 14 INVENTORIES

Food Service Fund inventories at June 30, 2021, amounted to \$3,789. Purchased inventories are state at cost. Donated inventories, received at no cost under a program supported by the United States Government, are recorded at their estimated fair market value at the date of receipt.

NOTE 15 LONG TERM DEBT

Changes in Long-Term Debt

NOTE 15 LONG TERM DEBT (Continued)

Certificates of Participation Refunding Series 2015

On June 1, 2015, the District issued \$680,000 of Certificates of Participation Series 2015 with an average interest rate of 3.03% and paid addition principal of \$615,000 to advance refund \$1,295,000 of outstanding 2007 Certificates of Participation bearing interest rates ranging from 4.09% to 5.00%.

The District completed the advance refunding to reduce the total debt service payments over the next 12 years by \$257,208 and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$106,252.

Below is a schedule of debt service requirements to maturity.

Certificates of Participation Series 2015

Fiscal Year	Principal	<u>Interest</u>	Total
2022	55,000	10,926	65,926
2023	60,000	9,157	69,157

2027	65,000	_1,073	66,073
	370,000	<u>36,937</u>	406,937

REQUIRED SUPPLEMENTARY INFORMATION

MAJOR GOVERNMENTAL FUNDS

General Fund

The General Fund accounts for all transactions of the District not accounted for in other funds. This fund represents an accounting for the District's ordinary operations financed from property taxes and other general revenues. It is the most significant fund in relation to the District's overall operations.

<u>Food Service Special Revenue Fund</u> - this fund accounts for all financial activities associated with the District's school breakfast and lunch programs.

SINGLE AUDIT SECTION

164 E. MAIN TRINIDAD, COLORADO 81082 (719) 846-9241 FAX (719) 846-3352

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education McClave School District Number RE-2 McClave, Colorado 81057

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of McClave School District Number RE-2 as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise McClave School District Number RE-2's basic financial statements, and have issued our report thereon dated November 22, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered McClave School District Number RE-2's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the McClave School District Number RE-2's internal control. Accordingly, we do not express an opinion on the effectiveness of the McClave School District Number RE-2's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether McClave School District Number RE-2's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Disjon Waller & Co, Toc.

164 E. MAIN TRINIDAD, COLORADO 81082 (719) 846-9241 FAX (719) 846-3352

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Board of Education McClave School District Number RE-2 McClave, Colorado 81057

Report on Compliance for Each Major Federal Program

We have audited McClave School District Number RE-2's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of McClave School District Number RE-2's major federal programs for the year ended June 30, 2021. McClave School District Number RE-2's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of McClave School District Number RE-2's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about McClave School District Number RE-2's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of McClave School District Number RE-2's compliance.

Opinion on Each Major Federal Program

In our opinion, McClave School District Number RE-2 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of McClave School District Number RE-2 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered McClave School District Number RE-2's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of McClave School District Number RE-2's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

McCLAVE SCHOOL DISTRICT NUMBER RE-2 NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2021

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the McClave School District Number RE-2 and is presented on the modified accrual basis of accounting. The information is presented in accordance with the requirements of Title 2 U.S. Code of Federal Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the general purpose financial statements.

NOTE 2 INDIRECT COST RATES

All grants being charged indirect cost have been received through the Colorado Department of Education. The Department calculates an allowable indirect cost rate for individual sub-recipients and mandates that the rate be used as the maximum for the recovery of indirect cost. The District has recovered indirect cost from grant funds at an amount no greater than that allowed by the Colorado Department of Education and has not elected to use the 10% de minimis indirect cost rate allowed by Uniform Guidance.

NOTE 3 FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of commodities received.

NOTE 4 SUBRECIPIENT PAYMENTS

No amounts of federal financial assistance were passed through to subrecipients in the year ended June 30, 2021.
