

McClave School wishes to stay in contact with students and parents about upcoming events and needed reminders. The text messaging communication program allows us to send an individual student and/or parent a single message, or send an important message to the entire school in seconds. We use the group texting to inform you of schedule changes to ball games and school events; we will also text out emergency information such as when school has been cancelled.

This information is strictly voluntary. Please keep in mind some service plans does not include free text messaging, this service will cost you the fee your provider charges.

Please provide all of the information below.

Note: We need to know who your provider/carrier is. Knowing the provider/carrier is necessary because we have to convert information from email to text form. Most providers are easy to convert, but Straight Talk has not yet had a conversion code.

Phone #1

Name: _____

Cell Number: _____

Carrier: _____

Phone #2

Name: _____
