

McClave School

Photo Permission

Dear Parents;

Many of the teachers at McClave have their own websites, and like to include photographs of activities. Our websites are used to support our classroom instruction, to communicate with parents and students, and for fun and motivation. We have the capability of uploading pictures of students. However, we would like to be sure that we have parental permission to upload them to the site. There will be not personal information in the caption or on the pictures. All of the pictures will have to do with classroom experiences, or extracurricular experiences. The intent is to show your child, and our school, in a positive way.

You can get to them through our school web site – www.mcclaveschool.org

Student photos may also be used for Yearbook, “*The Cardinal Connection*” (school newspaper) and school social media accounts.

Student Name _____ may appear in classroom and extracurricular photos on school sponsored websites for the school year dated below.
